What are 18-unit credential completion degree programs?

The graduate school of education recognizes many current CCTC credentialed educators have yet to earn their MA degree. The GSOE applies 12 units of previous California credential course work to its 30 unit MA.Ed. or M.Ed.(Online) programs, therefore a student only needs to complete 18 units or 6 classes at Touro University California in order to earn a degree. This can be done in an online (M.Ed) program or face to face (MA.Ed) programs. Our programs are designed to be completed in one year.

What are district-based cohorts?

The graduate school of education partners with surrounding school districts and superintendents to offer MA.Ed. programs at convenient locations and times. The classes take place at local school districts. These programs are 18-unit credential completion degree programs and can be completed in one-year. Please contact us to learn when another program might start in your district.

The following is a list of partner districts:

Benicia Unified SD
Fairfield-Suisun SD
John Swett USD
Martinez Unified SD
Napa Valley USD
Novato USD
Vacaville USD
Vallejo City USD
