JOB DESCRIPTION FOR NURSE PRACTITIONER OR PHYSICIAN ASSISTANT

Background

Diablo Infectious Diseases is a single specialty group providing high quality Infectious Diseases consultation services to acute hospitals and skilled nursing facilities in much of Alameda County. We are striving to better serve our patients and our referring physicians by providing consultation services in many skilled nursing facilities, concentrating in Hayward and Fremont. We are seeking an intelligent, enthusiastic Nurse Practitioner or Physician Assistant to help us. We will provide back-up and appropriate training to the interested candidate.

Essential responsibilities

- Functions with the aid of the physician to perform Infectious Disease consultation services for acute and chronically ill patients primarily in skilled nursing facility settings.
- Communicates with physician in interpreting diagnostic and therapeutic tests relative to patient’s needs.
- Writes legible appropriate notes.
- Prescribes appropriate pharmacologic and non-pharmacologic treatment modalities with the aid in consultation with the physician.
- Implements interventions to support the patient to regain or maintain physiologic stability, including but not limited to serving in the first assisting role.
- Assists with the provision of medical care in accordance with facility, state, and federal regulations.
- Provide own transportation to and from sites.

QUALIFICATIONS:

- Graduate of an accredited school
- Licensure in state of practice
