1) **Student Email Accounts and Email Group Membership**

All Touro University California students are issued a tu.edu email account and are automatically enrolled in an email group for their Class. This process typically occurs approximately 60 days prior to the start of classes and information will be sent to the email address you included in your Acceptance Response Form. Once issued, all official correspondence between the University and the student will occur either via the tu.edu email account or the Class email group.

2) **Online Registration Information**

Touro University California students register for classes using TC Web, an online student information system at [https://tcweb.touro.edu/cgi-bin/login.mbr/login](https://tcweb.touro.edu/cgi-bin/login.mbr/login). Instructions regarding how to register using this service will be sent to your new tu.edu email account along with required documents for you to complete and return to the Office of the Registrar. New student tu.edu email accounts will be activated approximately two months prior to the start of the fall academic session. Student ID numbers, which are generated by the Office of Admission, are required for TC web registration and for required documents. If you misplace your student ID number, please contact the Office of Admissions (admit@tu.edu) to have your ID re-issued.
