Upcoming Deadlines for Public Health Training Programs

ASPH/EPA Environmental Health Fellowship Program

- Sustainable Communities Fellowship
- Climate Change and Health Fellowship
- Drinking Water and Public Health Fellowship
- Social Science/Environmental Health Fellowship
- Children's Environmental Health Fellowship
- Air and Public Health Fellowship

Emerging Infectious Diseases Advanced Laboratory Training Fellowship
A one-year program designed for bachelor’s or master’s level scientists, with emphasis on the practical application of technologies, methodologies and practices related to emerging infectious diseases.

Emerging Infectious Diseases (EID) Postdoctoral Laboratory Research Fellowship Program
A two-year program designed for doctoral level (PhD, MD or DVM) scientists to conduct high-priority research in infectious diseases.

Hispanic-Serving Health Professions Schools (HSHPHS) Training Programs
Training programs for current or recent graduate students. Opportunity to better understand the significant health implications along the US-Mexico Border, how to prevent and control specific diseases that are relevant within the Hispanic community, and global health issues effecting Latin America.

James A. Ferguson Emerging Infectious Diseases Fellowship Program
A nine week summer program providing educational and professional development opportunities for students from underrepresented populations defined by the federal government.

CDC-Hubert Global Health Fellowship
Six- to twelve-week introduction to preventive medicine, public health, and applied epidemiology in an international setting; apply in your second or third year

CDC Summer Graduate Environmental Health Internship (GEH)
Ten-week summer internship for graduate students interested in a career in environmental health

Public Health Associate Program (PHAP)
PHAP is a competitive, two-year, paid fellowship within CDC. Public Health Associates are assigned to state, tribal, local and territorial public health agencies and hold positions that are functionally indistinguishable from their local colleagues.
Directors of Health Promotion and Education (DHPE) Internships
The program has been designed to provide students with practical experiences in public health related to the core competencies of health education and to introduce the students to the essentials of public health.
